DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, Species II in Paper No. 8 is acknowledged.
Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 4, 6-8, and 10-26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention or species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

4. Claims 1, 5, and 9 are objected to because of the following informalities:

Art Unit: 2861

- Claim 1: "said partition wall" (line 7) lacks proper antecedent basis. The word "wall" should be ~~walls~~.
- Claims 5 and 9: "said filling member" lacks proper antecedent basis. To have proper antecedent basis for "said filling member", it is believed that claim 5 should depend on claim 3 in which a filling member is recited.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Takahashi (JP 09-094954) as illustrated below.

Allowable Subject Matter

7. Claims 3, 5, and 9 would be allowable if rewritten to overcome the objection set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 2861
